

# HELIX® 3025

HexArmor®

Innovation intertwined with safety. That's the DNA of the Helix® Series. The high-comfort Helix® 3025 is constructed with a strong yet extremely dexterous 21-gauge HPPE/steel blend shell with 360° level A4 cut resistance.

A foam nitrile palm coating offers level 5 abrasion resistance and increased grip in oily or dry applications, while the knit wrist helps prevent dirt and debris from entering the glove.
