

CHROME  
SERIES

# 4027

HexArmor®

Don't settle for anything less than the safest mechanic's glove on the market. The Chrome Series® 4027 was purpose-built for the building material and aggregate industries and features a SuperFabric® brand material palm that provides level A8 cut resistance giving over 5000 grams of protection, 20 times the amount offered by a standard leather glove. The 4027 takes glove durability to the next level with a double-stitched hi-vis TP-X® material palm that maintains excellent grip in dry and light oil situations and a Gunn cut construction that adds extra durability in common areas of wear. When it comes to tough gloves, this one tops them all.

## Product features

- SuperFabric®\* brand material provides industry-leading cut, puncture, and abrasion resistance on the palm (interior layer)
- Hi-vis back-of-hand impact guards with advanced, low-profile design protects against smash and pinch hazards on the knuckles and fingers
- Durable TP-X® palm with reinforced stitching pattern provides ultimate abrasion resistance, and grip in wet and dry situations
- Gunn cut construction for increased durability between fingers
- Hi-vis color scheme and reflective piping on back-of-hand increases visual awareness
- Palm seams are reinforced with a double stitched core-spun thread, adding further durability and longevity
- Elastic cuff with hook and loop closure for a comfortable, secure fit
- Pull tab for easy don and doff
- Form-fitting, quality materials for increased dexterity and all-day comfort
- Launderable
- Vend-packed
