

# HeatArmor® 5055

Built to handle extreme heat applications such as MIG welding, HexArmor's HeatArmor® 5055 gloves are purpose-built with industry-leading protection, fit, comfort, and longevity.

The 5055 features a cowhide leather exterior with our revolutionary, long-lasting HeatHide® leather treatment technology while an interior HPPE/polyester/steel liner delivers 360° cut protection – allowing you to switch applications without switching your gloves. Plus, added sewn-on back-of-hand impact guards provide protection against smash and pinch hazards on the job.

## Product features

- HeatHide® technology leather treatment is ideal for extreme heat applications such as torch cutting, welding, and foundries
- Goatskin leather palm and back-of-hand
- Sewn-on back-of-hand impact guards provide level 2 protection on knuckles and fingers
- Tapered impact guards at finger tips to prevent catch hazards
- HPPE/polyester/steel blend liner provides 360° cut protection (interior layer)
- Made with flame-resistant materials
- Aramid stitching throughout for added strength and durability
- Gunn cut construction
- 4.25" extended gauntlet cuff with polyester lining
- Designed for MIG welding applications with added impact protection
- Vend-packed
